

## SECURITY SYSTEM which prevents overturning

### The smart system for dumping securely!

- \* *Informs the driver of potential dangers of height and tipping.*
- \* *Indicates the degree differences between the dumper and the frame to avoid major torsion.*
- \* *Easily installed, adjusted and calibrated with top quality components.*
- \* *Auxiliary output available for lowering the dumper when an alarm occurs (option).*

# SECURITY SYSTEM which prevents overturning

4" Superior quality operator interface

Warning Buzzer
